**CAUSE NO. 6:06-CV-0082 LED
JURY TRIAL DEMANDED**

**DEFENDANT AMERIMERCHANT, LLC’S REPLY
IN SUPPORT OF ITS MOTION FOR LEAVE TO AMEND
PRELIMINARY INVALIDITY CONTENTIONS**

Defendant AmeriMerchant, LLC (“AmeriMerchant”) hereby files its Reply in Support of its Motion for Leave to Amend Preliminary Invalidity Contentions and, in support hereof, would respectfully show the Court as follows:

I.

BACKGROUND

As described in AmeriMerchant’s Motion for Leave to Amend Preliminary Invalidity Contentions (“Motion”), AmeriMerchant has gone to great lengths to diligently pursue and collect any documentary evidence supporting invalidating prior art in this matter, including undertaking the daunting task of convincing its direct competitors to search for documents over a decade old. *See* Timeline of Facts Relevant to AmeriMerchant’s Motion to Amend Invalidity Contentions (“Timeline”), attached hereto as Ex. F; Motion at 2-4. As soon as these documents were located and provided to AmeriMerchant, AmeriMerchant has both (a) promptly provided the documents to Plaintiff AdvanceMe, Inc. (“AdvanceMe”), and (b) promptly incorporated the documents into, and served on AdvanceMe, invalidity charts identifying where each element of each

claim may be found in the produced documents. *Id.* Upon being told by AdvanceMe that it would object to the updated invalidity contentions, AmeriMerchant realized it had omitted to obtain leave and immediately filed its motion for leave to amend.

Rather than explain how AmeriMerchant could have possibly been more diligent in its effort to discover and disclose the Litle & Company prior art systems and supporting documentation, AdvanceMe, in its Opposition to AmeriMerchant, LLC's Motion for Leave to Amend Invalidity Contentions ("Opposition"), disregards the documented timeline of relevant facts set forth in AmeriMerchant's Motion and instead responds with assertions regarding when it *thinks* AmeriMerchant may have gained knowledge of the Litle & Company prior art. Further, AdvanceMe makes specious claims of hypothetical prejudice, all of which are either wholly unsupported or inapplicable to the instant case, as described herein.

Having shown good cause for its proposed amendment of its Preliminary Invalidity Contentions ("Original Contentions"), AmeriMerchant respectfully requests that the Court grant its Motion. As explained in its Motion, AmeriMerchant seeks leave to amend its Original Contentions to include facts contained in documents received after the scheduling order deadline for submitting its Original Contentions. *See* Ex. G, Comparison of Proposed Amendment to Original Contentions. As illustrated in Ex. G, the only supplementation to AmeriMerchant's invalidity contentions related to Litle & Company are those facts contained in documents obtained by AmeriMerchant after the scheduling order deadline for AmeriMerchant's Original Contentions.

II.

ARGUMENT

A. AmeriMerchant Has Shown Good Cause for the Proposed Amendment

As the parties agree, the Court may grant AmeriMerchant's Motion if AmeriMerchant shows good cause for the proposed amendment. *See STMicroelectronics, Inc. v. Motorola, Inc.*, 307 F. Supp. 2d 845, 849 (E.D. Tex. 2004) (Davis, J.); Opposition at 7. Four considerations are relevant to the Court's determination: (1) AmeriMerchant's reasons for not including the proposed amendment by the scheduling order deadline; (2) the importance of the additional documentary support for the Litle & Company prior art systems; (3) potential prejudice in allowing the additional documentary support for the Litle & Company prior art systems; and (4) the availability of a continuance to cure such prejudice. *See Alt v. Medtronic*, 2006 U.S. Dist. LEXIS 4435 (E.D. Tex. Feb. 1, 2006) (Davis, J.). As explained in its Motion and below, each of these four factors weighs strongly in favor of permitting AmeriMerchant's requested amendment. AdvanceMe's only arguments in opposition are either contrary to the documented facts or unsupported assertions of prejudice.

1. AmeriMerchant Received the Documents Upon Which its Proposed Amendment is Based After its Preliminary Invalidity Contentions Were Due

As demonstrated in the Motion and reiterated herein, the first factor – the explanation for the delay – weighs heavily in favor of granting AmeriMerchant's proposed amendment. AmeriMerchant did not receive the documents upon which its proposed amendment is based until July 25, 2006 (*after* the July 20, 2006 deadline for

serving its Original Contentions).¹ *See* Motion at 2-4; Ex. F. This documented timeline demonstrates that AmeriMerchant could not have reasonably met the scheduling order deadline for the additional Litle & Company documentary support, despite its diligence. AdvanceMe's Opposition does nothing to undercut that demonstration. Instead, it responds by making bald and unsupported assertions about AmeriMerchant's knowledge, all of which are contradicted by the objective facts.

AdvanceMe argues that AmeriMerchant received "the Litle documents" in June, Opposition at 8, although fails to recognize that the *only* Litle documents received in June were fragments of a single postage advance agreement. *See* Ex. F; Ex. B to the Declaration of Joseph Gray in Support of Defendant's Motion ("Gray Declaration"). At that time, AmeriMerchant had not obtained enough information about Litle & Company (which was sold in 1995) to determine whether and to what extent Litle & Company practiced the claimed invention in the early 1990s. It was not until AmeriMerchant received additional information and additional documentation on July 14, 2006 that AmeriMerchant was able to assert in good faith that Litle & Company publicly and commercially practiced U.S. Patent No. 6,942,281's (the "281 Patent") claimed invention. *See* Ex. F; Ex. C to Gray Declaration. Six days later, on the July 20, 2006 scheduled date, AmeriMerchant served its Original Contentions, which included the Litle & Company prior art systems and citations to the relevant documents that AmeriMerchant had received as of that date. *See* Ex. F.

¹ As explained in AmeriMerchant's Motion at 7, AmeriMerchant's proposed amendment includes only additional information regarding the Litle & Company prior art systems contained in these later-obtained documents. *See* Ex. G; Ex. C to Gray Declaration. Also as explained in AmeriMerchant's Motion, the proposed amendment further supplements the disclosures regarding Litle & Company made in AmeriMerchant's Original Contentions served July 20, 2006.

AdvanceMe also states that AmeriMerchant “had full access to Mr. Litle in June.” Opposition at 8. However, AdvanceMe fails to offer any basis for this statement, fails to recognize that any relevant documents are in the possession of Paymentech (a multi-billion dollar processing company and competitor of AmeriMerchant, which evolved from First USA years after First USA bought Litle & Co. in 1995), and fails to recognize that Mr. Litle is the CEO of a large processing company (also AmeriMerchant’s competitor) and has no immediate interest in the outcome of this litigation. *See id.*; Ex. H. AmeriMerchant has painstakingly gained only limited access to Mr. Litle and has had an extremely difficult time convincing Paymentech to search for decade-old documents and provide them to AmeriMerchant.

AmeriMerchant has exerted incredible effort in its search for documentation regarding the Litle & Company prior art and has provided to AdvanceMe all relevant information it has obtained every step of the way.² *See* Ex. F; Motion at 2-4. Indeed, AmeriMerchant now seeks to supplement its contentions about the Litle & Co. prior art, to include documentary evidence that it received July 25, 2006 and that it promptly produced to AdvanceMe on July 28, 2006. AdvanceMe’s statement that “AmeriMerchant was fully aware of the information it now seeks to add at the time it served its original Preliminary Invalidity Contentions,” Opposition at 1, is simply inaccurate, as it is directly contradicted by AmeriMerchant’s documented correspondence with Tim Litle and Paymentech.

² AmeriMerchant brought this motion as soon as it was brought to AmeriMerchant’s attention that it had failed to file a motion for leave to amend its Original Contentions. *See* Ex. I (Letter from Robert Matz to Hilary Preston dated September 1, 2006). AdvanceMe’s attempt to attribute a lack of good faith or gamesmanship to the delay in bringing the motion is thus misplaced. AmeriMerchant has promptly provided all relevant information to AdvanceMe as it has become available to AmeriMerchant, as described in its Motion and herein.

2. The Litle & Company Prior Art Systems Anticipate All Relevant Claims of the '281 Patent

As explained in AmeriMerchant's Motion, the documents obtained by AmeriMerchant, and the accompanying analysis in AmeriMerchant's proposed amendment, are critically important to AmeriMerchant's defense of AdvanceMe's claims, as they further demonstrate invalidity of all relevant asserted claims. *See* Motion at 7; Ex. G. AdvanceMe, in its Opposition, does not explain any basis for contending that Litle & Company does not constitute invalidating prior art, but rather states that AmeriMerchant "relies only on lawyer's argument." Opposition at 10. But AmeriMerchant does no such thing. The detailed facts demonstrating how Litle & Company's systems anticipated the relevant asserted claims are found in the July 20, 2006 Invalidity Contentions, and are further supported in the Litle & Company documents (produced to AdvanceMe on or before July 28, 2006) and in AmeriMerchant's Amended Preliminary Invalidity Contentions (served August 30, 2006).

AdvanceMe fails to mention that Mr. Litle testified at his deposition on September 6, 2006, that AmeriMerchant's proposed Amended Invalidity Contentions accurately describe the manner in which the Litle & Company systems anticipate all relevant claims of the patent-in-suit. *See* Ex. J, Tim Litle Deposition Transcript at 123-158. AdvanceMe also fails to mention that it cross-examined Mr. Litle for about three hours and was unable to raise even one single basis for contending that any relevant asserted claims could somehow avoid anticipation by the Litle & Co. systems. As this Court has agreed that an amendment to include invalidating prior art weighs in favor of

permitting the amendment, AmeriMerchant has satisfied this second prong of the analysis.³ *See Alt*, 2006 U.S. Dist. LEXIS 4435, *12-13.

3. AdvanceMe Will Suffer No Relevant Prejudice if the Court Permits the Amendment

As explained in AmeriMerchant's Motion and confirmed by AdvanceMe's Opposition, AdvanceMe will suffer no relevant prejudice if the Court permits the proposed amendment. AmeriMerchant included the initial framework for the Litle & Company prior art in its Original Contentions, which were served on AdvanceMe on July 20, 2006. *See Ex. F.* AdvanceMe was thus on notice of this prior art system by the scheduling order deadline. On July 28, 2006, eight days after serving its Original Contentions, AmeriMerchant produced the additional documentation to AdvanceMe on which the entirety of AmeriMerchant's proposed amendment is based. *See Ex. F.* Further, trial is set for January 14, 2008, and discovery does not close until July 17, 2007. Both parties thus have ample time to conduct all necessary discovery.

But, instead of addressing these facts directly, AdvanceMe ignores the precedent of this Court that permitted an amendment seven months after the original deadline for submission of preliminary invalidity contentions (and after the *Markman* hearing)⁴ and proffers several stock claims of prejudice that are wholly disconnected from the facts of this case. AdvanceMe claims that AmeriMerchant's proposed amendment threatens "to throw the discovery process into chaos" because AdvanceMe has "prepared discovery requests, responded to discovery, conducted depositions, and prepared for claims

³ AmeriMerchant again notes that it is not proposing an amendment to include a prior art reference that was undisclosed in its original Preliminary Invalidity Contentions; rather, it is proposing to *supplement* its Original Contentions to include *further* support found in documents obtained *after* the Original Contentions were served.

⁴ *See Alt v. Medtronic, Inc.*, 2006 U.S. Dist. LEXIS 4435, *13-14 (E.D. Tex. Feb. 1, 2006).

construction relying on AmeriMerchant's original Preliminary Invalidity Contentions." Opposition at 11. AdvanceMe also inexplicably claims that it would have to propound "new requests for admission and new requests for production." *Id.* AdvanceMe's specious claims of prejudice may appear credible in a vacuum, but they are wholly inapplicable to this case.

First, as the parties in this action are to produce all documents relevant to any claim or defense without discovery requests, pursuant to the patent rules and Discovery Order, and as AdvanceMe has not served a single request for admission on AmeriMerchant, AdvanceMe's claim of prejudice based on propounding "new requests for admission and new requests for production" are questionable at best. Regarding "respond[ing] to discovery," AdvanceMe has not produced a single non-publicly available document in this action,⁵ but instead has only produced several thousand pages of publicly available prosecution histories, and the articles and patents cited therein. Nor has AdvanceMe responded to the single interrogatory propounded by AmeriMerchant. AdvanceMe does not explain how its *lack* of discovery response has in any way been affected by AmeriMerchant's proposed amendment.

Second, AdvanceMe argues that it has "prepared for claims construction relying on AmeriMerchant's original Preliminary Invalidity Contentions." Opposition at 11. While it is clear from AdvanceMe's proposed constructions that it is attempting to exclude prior art through erroneous claim construction, as explained in AmeriMerchant's Responsive Claim Construction Brief at 5-12 and 16-21, invalidity contentions and prior art are *wholly irrelevant* to claim construction analysis and thus provide no basis for

⁵ However, yesterday, Plaintiff, for the first time produced some discovery, in the form of excerpts from three depositions in another case, where Defendants had been requesting the entire deposition transcripts for some time.

AdvanceMe's claims of prejudice. *See Phillips v. AWH Corp.*, 415 F.3d 1303, 1327 (Fed. Cir. 2005) (en banc).

Third, only two depositions have been taken in this case, *both of which were noticed by AmeriMerchant*: Mr. Litle and the alleged inventor, Barbara Johnson.⁶ At Mr. Litle's deposition on September 6, 2006, both parties examined Mr. Litle on the documents that AmeriMerchant received by July 25, 2006 and that AmeriMerchant produced to AdvanceMe on or before July 28, 2006. In other words, AdvanceMe received all Litle & Company documents on which AmeriMerchant's proposed amendment is based, and on which AmeriMerchant's questioning at Mr. Litle's deposition was largely based, over a *month prior* to Mr. Litle's deposition, and AdvanceMe had the opportunity to question Mr. Litle based on all of those documents. Further, AdvanceMe served a subpoena requesting *additional* documents on Mr. Litle, and Mr. Litle produced all relevant documents pursuant to that subpoena in advance of the deposition. AdvanceMe thus had every opportunity to examine Mr. Litle based on all relevant documents at his deposition September 6th, which it did for roughly three hours. AdvanceMe also fails to mention that upon receiving Defendant's updated invalidity contentions on August 31, 2006, AdvanceMe contacted Mr. Litle, asked him questions, and told him that his deposition would be taken on September 6, 2006. How can AdvanceMe now pretend it was not ready for the deposition on the date it chose for the deposition?

As shown above, AdvanceMe's stock claims of prejudice are untenable under the facts of this case. The reality is that, despite AdvanceMe's rhetoric of "enough [is]

⁶ Barbara Johnson was deposed on June 28, 2006 at the location of AdvanceMe's choice, well before the July 20, 2006 scheduling order deadline for submitting preliminary invalidity contentions.

enough,” Opposition at 2, the trial in this case is more than a year away and discovery does not close for nearly 10 months, and AdvanceMe will suffer no actual prejudice from the Court’s granting AmeriMerchant’s Motion. This factor thus also weighs in favor of permitting AmeriMerchant’s proposed amendment.

4. Availability of a Continuance

As explained in AmeriMerchant’s Motion, any prejudice suffered by AdvanceMe could be cured by a continuance of the pre-trial deadlines. Motion at 9. AdvanceMe does not argue that such a continuance would not cure any prejudice suffered; instead, AdvanceMe claims that its “planning for [certain unrelated] discovery would have to be modified,” including the claim construction hearing and AmeriMerchant’s 30(b)(6) deposition. Opposition at 12. AdvanceMe, however, fails to explain how its “planning” for this discovery would “have to be modified,” or why a continuance would not resolve any such “planning” issues. This factor thus weighs heavily in favor of permitting AmeriMerchant’s proposed amendment.

B. The Court Should Deny AdvanceMe’s Premature Request

In what appears to be AdvanceMe’s true motivation in opposing AmeriMerchant’s meritorious Motion, AdvanceMe argues that it would have been willing to agree to the amended Invalidity Contentions provided that “this should be the last set of amended contentions that AmeriMerchant is permitted to serve in this case.” Opposition at 12. AdvanceMe’s novel suggestion of a preemptive approach to *future* amendments, even if based on good cause, is not only unsupported, but contrary to the interests of justice. Indeed, such an argument reveals the lack of a credible argument in opposition to the *current* Motion. The Court should not permit AdvanceMe to cower behind stock claims of prejudice in an attempt to avoid introduction or development of

invalidating prior art. Third party depositions to provide additional evidence to support the disclosed prior art are still being scheduled,⁷ and additional facts regarding prior art systems which were used commercially more than 10 years ago by various companies, many of whom no longer exist, are still being investigated on an urgent basis. AmeriMerchant thus respectfully requests that AdvanceMe's request for an arbitrary, preemptive exclusion of any future proposed amendments to AmeriMerchant's Preliminary Invalidity Contentions be disregarded.

III.

CONCLUSION

Defendant therefore respectfully requests that the Court grant the motion for leave to amend, and that any future motions for leave to amend be considered on their own merits.

October 3, 2006

EXHIBIT F

EXHIBIT F
Timeline of Facts Relevant to AmeriMerchant's
Motion to Amend Invalidity Contentions

- February 27, 2006: AdvanceMe files the instant action and adds First Funds, LLC, Merchant Money Tree, Inc., and Reach Financial, LLC (the “*Rapidpay* Defendants”) as defendants in Civil Action No. 6:05-CV-424 (LED) (the “*Rapidpay* Action”). (The *Rapidpay* Defendants and AmeriMerchant are hereafter referenced as the “Defendants”)
- April 20, 2006: Defendants retain Vinson & Elkins L.L.P. (“V&E”) as counsel.
- April 26, 2006: David Goldin (of AmeriMerchant) sends an email to Tim Litle containing David Goldin’s contact information. *See* Ex. A to Gray Declaration.
- June 19, 2006: Paymentech provides to AmeriMerchant fragments of supporting documentation for a Litle & Company “postage advance” agreement with a merchant. *See* Ex. B to Gray Declaration.¹ This documentation, alone, does not provide the Defendants with sufficient information to include Litle & Company as a prior art system in their Preliminary Invalidity Contentions. Defendants’ efforts to discover additional documentation continue.
- June 28, 2006: Deposition of the alleged inventor, Barbara Johnson. Examination did not involve Litle & Company.
- July 7, 2006: The *Rapidpay* Defendants serve their Preliminary Invalidity Contentions.
- July 14, 2006: Paymentech provides to AmeriMerchant additional fragments of supporting documentation evidencing Litle & Company’s public and commercial use of its “postage advance” product. *See* Ex. C to Gray Declaration. At this point, based on *both* sets of documents it has received and factual investigations to date, Defendants have a good faith basis for including Litle & Company as a prior art system in their Preliminary Invalidity Contentions.
- July 20 and 21, 2006: AmeriMerchant serves its Preliminary Invalidity Contentions in the instant action; the *Rapidpay* Defendants serve their Amended Preliminary Invalidity Contentions (amended to include Litle & Company prior art systems); and Defendants provide to AdvanceMe all Litle & Company supporting documentation they have received to date.

¹ AmeriMerchant received these first fragments of documentation on June 19, 2006. The fax header accompanying the documents reveals this date, although the fax cover sheet improperly states “March 3, 2006.” *See* Ex. B to Gray Declaration. These documents were first received by AmeriMerchant on June 19, 2006, as correctly revealed by the fax header.

- July 25, 2006: Defendants finally receive from Paymentech a *complete* “postage advance” agreement and additional supporting documentation regarding the systems and methods practiced by Litle & Company prior to the filing of the ‘281 Patent. *See* Ex. D to Gray Declaration.
- July 28, 2006: Defendants produce all Litle & Company documentation received since July 20, 2006 to AdvanceMe.
- August 30 and 31, 2006: Defendants served on AdvanceMe amended preliminary invalidity contentions in both actions reflecting the additional information in the documents that were produced by July 28, 2006. These amended preliminary invalidity contentions added no new prior art references; they simply further explained the Litle & Company systems and methods that were disclosed in AmeriMerchant’s Preliminary Invalidity Contentions, served July 20, 2006.
- September 6, 2006: Deposition of Tim Litle. All parties, including AdvanceMe, examined Tim Litle based on Litle & Company documents *available to all parties over one month earlier*.

"To succeed we have to know four things"

Three-Year Growth

5,629%

Tim Litle

Chairman, Litle & Co. Financial Services

More than 40 years of direct marketing and financial services history is packed into the genial, unassuming person of Tim Litle. An engineer to the core, Litle, 66, is responsible for some of the commercial world's least sexy innovations, including those three-digit numbers on the backs of credit cards that discourage fraud, credit card rules that let consumers buy on installment plans, and the system by which mass mailers receive discounts from the U.S. Postal Service for presorting by carrier route. Those ideas and others have made or saved billions of dollars for Litle's clients, as well as thousands of direct marketers who have never heard his name. Litle & Co. is No. 1 on this year's Inc. 500 list with \$34.8 million in 2005 revenue and three-year growth of 5,629.1 percent.

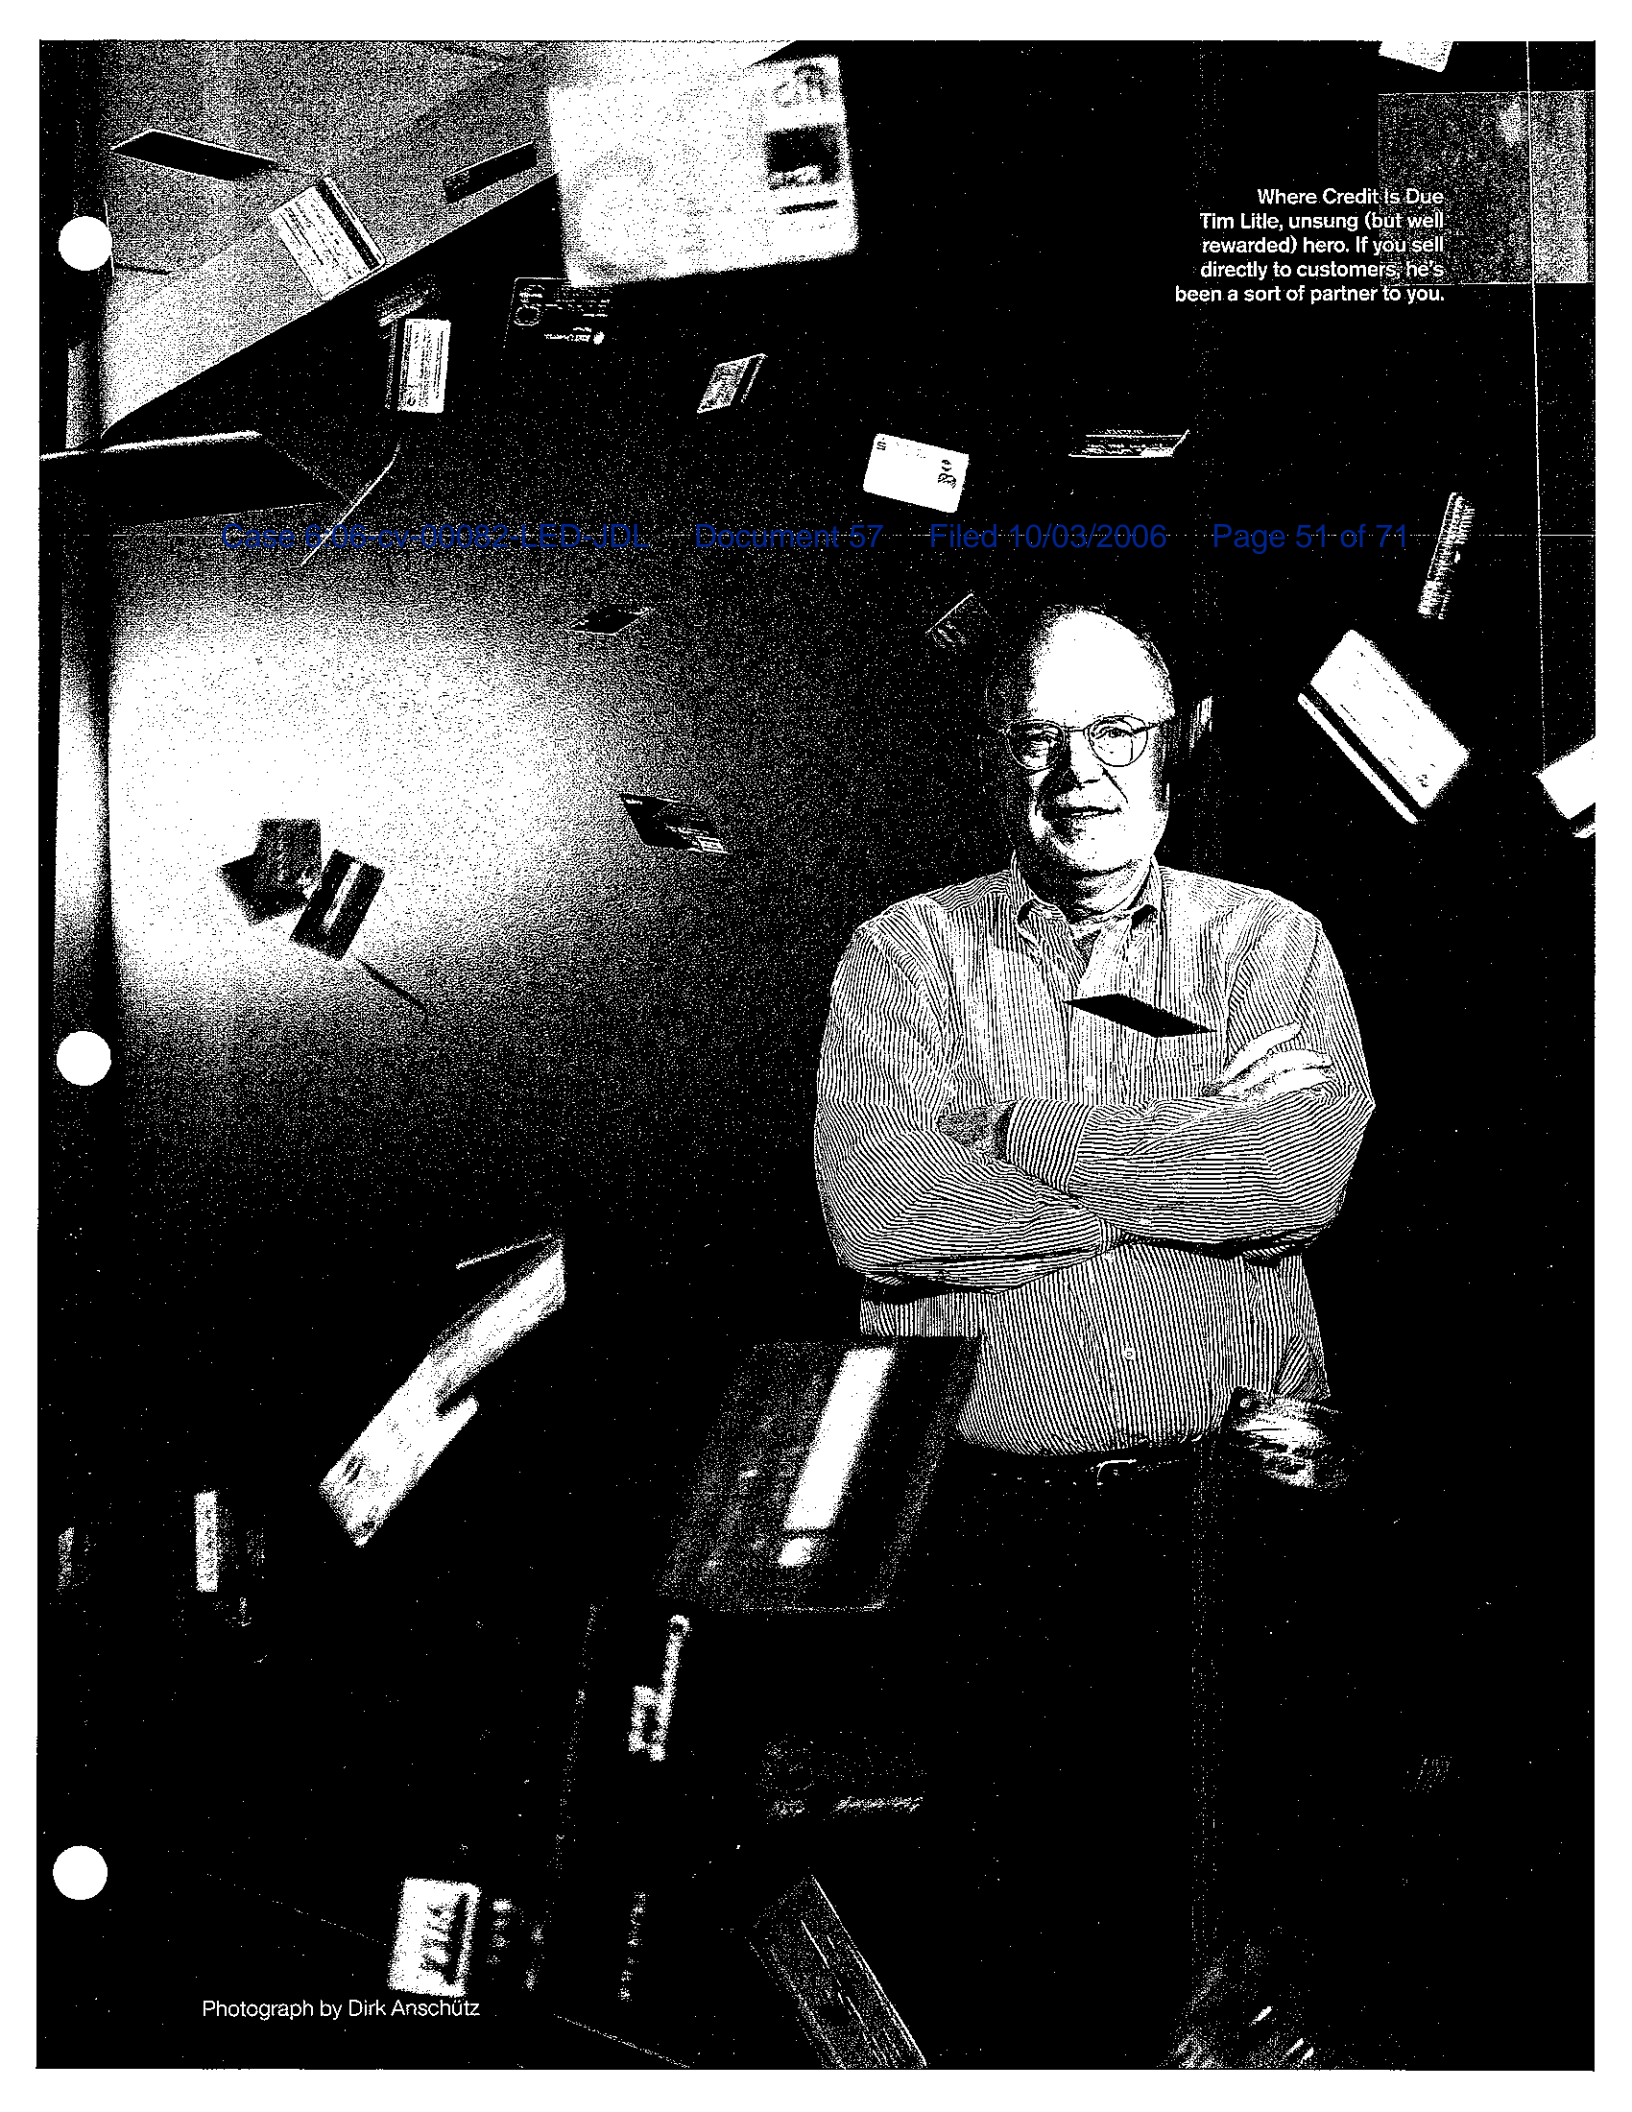

I grew up in Grosse Pointe, Michigan. My grandfather was the chief engineer for Lincoln; my dad ran the Detroit office for *Time* magazine. The engineering gene must have skipped a generation: I got it and went to Cal Tech. My freshman physics professor was Richard Feynman and my freshman chemistry professor was Linus Pauling.

At Harvard Business School I took all the entrepreneurial courses I could. I wanted to be a technical entrepreneur, although at the time it wasn't clear what that meant. After business school I worked on cold-war intelligence technologies at Litton Industries. I was there for less than a year when I got appendicitis, and while I was having my appendix out someone stole my project from the lab. The Feds were all

over the place. I left Litton in 1965. That was the last time I worked for a company that wasn't mine.

A politician friend wanted to be able to mass-mail letters to specific groups of voters. I thought we could use computers to create targeted letters based on information about groups of people. The politician and I and two other guys started a company to do that for large marketers.

We got into list management, which means segmenting a marketer's mailing list according to demographics and buying patterns. We also saw a big opportunity in subscription fulfillment—making sure the right people get the publications they subscribe to. One of our clients was *The Christian*

Science Monitor. Only 70 percent of the time did subscribers get it on the day they expected it. I went into one of the printing plants and watched people take the *Monitors* off the belt and stuff them in mail sacks. There was a thick manual about how to put stuff in the sack and the maximum weight and the minimum number of pieces. These were minimum-wage people—a lot of them didn't speak English. And they were writing out the tags that went on the mail sacks by hand and then taking them to the post office where more people would dump them on a table and then put them in other sacks. We came up with a system to computerize that: Labels would be printed according to Zip codes and the newspapers would then be sorted based on their destinations. We got it working, and I'll be damned if they didn't get 92 percent on-time delivery.

One of my business school friends was high up at the U.S. Postal Service, and they'd been studying the *Monitor* thing. He said, "We save so much money with this, do you think you could get your buddies in the direct marketing business to do it if we give them a discount?" It cost 9.6 cents to mail a catalog, so I said, "How about four cents?" Eight months later the post office announced its first Carrier Route Presort discount, and it was four cents. Now about half of all mail is delivered that way. I think they paid me \$500 for introducing the idea.

Around 1977, I had sold my company, and my wife, Joan, and I bought a catalog company. It was called Clymer's of Bucks County and it sold American handicrafts. We also began to handle warehousing and fulfillment for other catalogs. All the catalogs were losing 2 percent of sales because of inefficiencies in the payment-processing system—the networks were set up for retailers and not for situations where the buyer isn't present to hand over his card. So in 1982 I put together a system to address the requirements of catalogs and the card-not-present world. We eventually brought that 2 percent down to about .1 percent.

I started the first Litle & Co. in 1986, with \$1.6 million of unsecured credit

from the bank. The total amount Joan and I put in was \$1,000. It was another payments-processing company for catalogers. We had customers like AOL, Lands' End, most of the guys on late-night television selling Chinese woks.

We did some significant things. We worked with Visa to introduce address verification, where a cataloger asks for the customer's billing address as a way to check his identity. With American Express we introduced the identification number on credit cards. Another thing

marketing or Internet conferences. Third, we have to know Visa and MasterCard regulations. And fourth, we have to know how to manage risk. We are the ones who make sure the card issuers get their money from our customers' sales. So if one of our customers goes out of business we take it on the chin pretty hard.

This is the engineer in me talking, but I want to build the perfect payment processing system. The software environment has changed a lot since my old company. There's not a whole lot of stuff in

"Like those other things, installment billing was a dumb idea of mine, then it was an interesting idea of mine, then it was Visa's idea."

we got through was installment billing. Visa had rules against that because the interest would be paid to the seller and not the credit card issuer. We explained that companies like NordicTrack don't want the interest; they want to increase their sales. We suggested a rule that would prohibit the seller from collecting interest on installment payments. Six weeks later, the rules changed, and Visa ended up selling installment payments as a feature. Like those other things it was a dumb idea of mine, and then it was an interesting idea of mine, and then it was Visa's idea.

In 1995 I sold the company to First USA for about \$80 million. I didn't sell them my name so they renamed it Paymentech.

In 2001 I started this company. It does the same thing as the first Litle & Co., but it's a different entity. More than half of our clients are Internet marketers.

To succeed, we have to know four things. First, we have to be good systems guys. Our competitors are very nontechnical, whereas systems are our core competence. Second, we have to know our market. Our competitors are populated by bankers and go to banking conferences; we go to direct

our computer room: The undepreciated value of all our computer hardware is around \$500,000. There was probably \$20 million in the old Litle & Co., and we had twice the number of employees.

My son Tom has an art history degree and a fine arts degree. He also ran a successful venture capital firm for six years. But he worked at my other companies during the '90s, and last year he joined this one as vice president of business development. He's done such a terrific job that the members of our executive committee have come to me individually and said, "It's time to make Tom CEO." So we did that.

One of my personal goals for this year is not to be in the critical path of anything going on at the company. I think I'm doing a good job at staying out of these guys' way. I'm in the meeting every month where we plan the next month's software. And I explain how to deal with Visa and MasterCard, and with our partner bank, Wells Fargo. But I don't roll up my sleeves and do things like I used to.

People think I'm crazy, but I love this business.

As told to Leigh Buchanan

Re: *AdvanceMe, Inc. v. RapidPay LLC, et al.* (No. 6:05-cv-00424) (E.D. Tex.);
AdvanceMe, Inc. v. AmeriMerchant, LLC (No. 6:06-CV-82) (E.D. Tex.).
Defendants' Amended and Second Amended Invalidity Contentions

Dear Hilary:

I write to inform you that Defendants in the above-referenced matters have violated the Patent Rules of the Eastern District of Texas by purporting to amend their Preliminary Invalidity Contentions without an order of the Court.

P.R. 3-7 provides:

Amendment or modification of the . . . Preliminary or Final Invalidity Contentions, other than as expressly provided in P.R. 3-6, may be made only by order of the Court, which shall be entered only upon a showing of good cause.

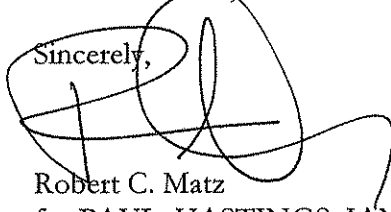

In the *RapidPay* matter, Defendants have twice purported to amend their Preliminary Invalidity Contentions without an order of the Court. On July 21, 2006, Defendants attempted to amend their Preliminary Invalidity Contentions by adding a number of alleged prior publication references to their Preliminary Infringement Contentions: (1) a credit card processing agreement among Electronic Data Systems Corporation, Reno Air, and First USA Merchant Services, (2) an article from *Forbes* magazine, and (3) a Promissory Note between Litle & Co. and Exposures, Inc.. On August 30, 2006, the *RapidPay* Defendants purported to amend their Preliminary Invalidity Contentions to include additional prior publication references with respect to Litle & Co., including (1) a Litle & Co. Member Agreement, (2) a Demand Promissory Note for Postage Advances between Museum Publications of America and Litle & Co., (3) a February 17, 1994 Letter from Robert George to Michael Duffy. Since amendment of Defendants' Preliminary Invalidity Contentions can be made only by order of the Court, and since there is no order of the Court granting Defendants permission to amend their Preliminary Invalidity Contentions, these purported Amended and Second Amended Invalidity Contentions are of no legal effect.

Hilary Preston, Esq.
September 1, 2006
Page 2

In the *AmeriMerchant* matter, on August 30, 2006, Defendant purported to amend its Preliminary Invalidity Contentions to include prior publication references with respect to Litle & Co., including (1) a Litle & Co. Member Agreement, (2) a Demand Promissory Note for Postage Advances between Museum Publications of America and Litle & Co., (3) a February 17, 1994 Letter from Robert George to Michael Duffy. Again, since amendment of Defendant's Preliminary Invalidity Contentions can be made only by order of the Court, and since there is no order of the Court granting Defendant permission to amend its Preliminary Invalidity Contentions, its Amended Preliminary Invalidity Contentions are of no legal effect.

In light of the foregoing, please be advised that AdvanceMe will only be considering those contentions set forth in Merchant Money Tree, Inc., First Funds LLC, and Reach Financial, LLC's Preliminary Invalidity Contentions, dated July 7, 2006, and AmeriMerchant, LLC's Preliminary Invalidity Contentions, dated July 20, 2006.

Sincerely,

A handwritten signature in black ink, appearing to be 'R. Matz', written over the word 'Sincerely,'.

We had to pay the fulfillment company on</p> <p>16 behalf of the merchant and we had our normal</p> <p>17 obligations as -- for routine payment</p> <p>18 processing, as well.</p> <p>19 Q. That were outlined in the Member Agreement?</p> <p>20 A. Yes.</p> <p>21 (One-page document entitled "US</p> <p>22 6,941,281 B1" is marked Exhibit</p> <p>23 Number 11 for Identification.)</p> <p>24 Q. I'm handing you what has been marked Litle</p> <p>25 Exhibit 11, which are the claims of United</p>	<p style="text-align: right;">124</p> <p>1 prepared with two columns. The left column</p> <p>2 lists the claims of the patent, which is the</p> <p>3 claims on Litle Exhibit 11 that you just</p> <p>4 read, 1 and 10, as well as all the other</p> <p>5 claims which are printed in the left column,</p> <p>6 and in the right column, we've cited to</p> <p>7 portions of the Litle documents that you've</p> <p>8 testified here today that refer to the</p> <p>9 elements of the claim that are listed in the</p> <p>10 left-hand column, and what I'd like to ask</p> <p>11 you to do is -- we'll go through this row by</p> <p>12 row and I'd like you to read the right-hand</p> <p>13 column, I'll read the left-hand column to</p> <p>14 you, and ask you to tell us if what we've</p> <p>15 cited in the right-hand column is accurate.</p> <p>16 MR. EDELMAN: Excuse me. Before</p> <p>17 you read that, can I have a representation</p> <p>18 as to whether this was provided --</p> <p>19 MR. GRAY: Yes, it was.</p> <p>20 MR. EDELMAN: It was provided when?</p> <p>21 MR. GRAY: Last week sometime.</p> <p>22 MR. EDELMAN: Okay.</p> <p>23 MR. SMITH: I'd like to note, we're</p> <p>24 not going to object to the line of</p> <p>25 questioning, certainly, but Mr. Litle is</p>
<p style="text-align: right;">123</p> <p>1 States Patent 6941281. It shows -- it's</p> <p>2 just the last page of the Patent Column 7</p> <p>3 and 8.</p> <p>4 MR. EDELMAN: I'll object to the</p> <p>5 extent that you're excerpting a page from an</p> <p>6 entire patent and also not showing Mr. Litle</p> <p>7 the proposed construction of the terms of</p> <p>8 the patent, and also not show him the</p> <p>9 arguments the parties have made with the</p> <p>10 file list of the patent.</p> <p>11 Q. Okay, could you please read Claims 1 and 10</p> <p>12 to yourself?</p> <p>13 MR. SMITH: Just 1 and 10?</p> <p>14 Q. Just 1 and 10.</p> <p>15 A. All right.</p> <p>16 Q. Do you understand those two claims?</p> <p>17 MR. EDELMAN: Same objections.</p> <p>18 A. I think so.</p> <p>19 (Document entitled "Little & Co.,</p> <p>20 Invalidity Claim Chart, United</p> <p>21 States Patent No. 6,941,281" is</p> <p>22 marked Exhibit Number 12 for</p> <p>23 Identification.)</p> <p>24 Q. I'm handing you what has been marked Litle</p> <p>25 Exhibit 12, which is a chart that we have</p>	<p style="text-align: right;">125</p> <p>1 here as a fact witness. He is not rendering</p> <p>2 a conclusion on patent validity. He is here</p> <p>3 simply to testify as a factual witness. I</p> <p>4 just wanted to make that clear before --</p> <p>5 MR. EDELMAN: And again, I want to</p> <p>6 object to the extent that this is being</p> <p>7 shown to Mr. Litle without the discussion of</p> <p>8 what the terms are construed to mean, or the</p> <p>9 parties' construction. It's misleading,</p> <p>10 putting the witness in an impossible</p> <p>11 situation. If you want to do it, go ahead.</p> <p>12 Q. You testified that you understand the terms</p> <p>13 that are used in the patent; is that</p> <p>14 correct?</p> <p>15 MR. EDELMAN: Same objections.</p> <p>16 A. Yeah, I think so, but if we get to some I</p> <p>17 don't understand, then I'll say that.</p> <p>18 Q. Please do. So on Page 1 of Litle Exhibit</p> <p>19 12, in the first row, the claim recites,</p> <p>20 "A method for automated payment,</p> <p>21 comprising."</p> <p>22 A. That's not exactly a complete sentence.</p> <p>23 Q. No, and what we've done, and the reason I</p> <p>24 had you read Claims 1 through 10, is because</p> <p>25 we have broken down the claims --</p>

32 (Pages 122 to 125)

<p style="text-align: right;">126</p> <p>1 A. Okay.</p> <p>2 Q. -- and if you would like to refer back to</p> <p>3 Little Exhibit 11, right there, you can read</p> <p>4 the full claim in context.</p> <p>5 A. Okay.</p> <p>6 Q. So "A method for automated payment," and</p> <p>7 what we've listed here are all the documents</p> <p>8 you've testified about today and stated</p> <p>9 "Little & Company utilized a method for</p> <p>10 automated payments as repayment of</p> <p>11 obligations owed by merchants either for</p> <p>12 postage or cash advances." Is that correct?</p> <p>13 A. Yeah, and also, the reserves and something</p> <p>14 like the Hanover Direct obligation. The</p> <p>15 other kinds of obligations that we've talked</p> <p>16 about. So it isn't just for postage or cash</p> <p>17 advances.</p> <p>18 Q. Was the fulfillment center operation that</p> <p>19 you just testified about, was that a method</p> <p>20 of automated payment?</p> <p>21 A. To the fulfillment center?</p> <p>22 Q. Yes.</p> <p>23 A. Yes.</p> <p>24 Q. What about for the wire fee you discussed?</p> <p>25 A. For the what?</p>	<p style="text-align: right;">128</p> <p>1 MR. EDELMAN: I can put my</p> <p>2 objections on the record.</p> <p>3 MR. SCHUURMAN: Well, make them</p> <p>4 short.</p> <p>5 MR. EDELMAN: I will make them as</p> <p>6 long as I want to make them.</p> <p>7 Q. Based on your understanding after being in</p> <p>8 the card processing industry for about 25</p> <p>9 years --</p> <p>10 A. More than that.</p> <p>11 Q. I'm sorry? Longer than that?</p> <p>12 MR. SMITH: 25-plus.</p> <p>13 Q. 25-plus years.</p> <p>14 MR. EDELMAN: Don't make him a</p> <p>15 patent attorney.</p> <p>16 Q. Do the --</p> <p>17 MR. GRAY: I'm sorry. Is that an</p> <p>18 objection?</p> <p>19 MR. EDELMAN: Yes, it is.</p> <p>20 MR. GRAY: I didn't hear</p> <p>21 "objection."</p> <p>22 MR. EDELMAN: Objection. It</p> <p>23 doesn't make him a patent attorney. Go</p> <p>24 ahead.</p> <p>25 MR. GRAY: Please limit your</p>
<p style="text-align: right;">127</p> <p>1 Q. For the wire fee; was that a method for</p> <p>2 automated payment?</p> <p>3 A. Yes.</p> <p>4 Q. And was equipment -- payments for equipment</p> <p>5 rental and purchase, was that a method for</p> <p>6 automated payment?</p> <p>7 A. Yes.</p> <p>8 Q. Looking now at the second row of the first</p> <p>9 page of Little 12, the claim says "At a</p> <p>10 merchant, accepting a customer identifier as</p> <p>11 payment from the customer." Can you look at</p> <p>12 the right-hand column and tell me whether or</p> <p>13 not those citations from the Little documents</p> <p>14 show that a merchant accepted the customer</p> <p>15 identifier as payment from the customer?</p> <p>16 MR. EDELMAN: Objection. Calls for</p> <p>17 claim construction, beyond the scope of the</p> <p>18 testimony, misleading, lack of foundation.</p> <p>19 Q. I absolutely do not want you to try to</p> <p>20 construe the claims.</p> <p>21 MR. EDELMAN: He has to construe</p> <p>22 the claim to answer the question.</p> <p>23 MR. SCHUURMAN: Why don't you ask</p> <p>24 him during your cross and stop interfering.</p> <p>25 Go ahead.</p>	<p style="text-align: right;">129</p> <p>1 objections to objections as to form.</p> <p>2 MR. EDELMAN: It was a beautiful</p> <p>3 objection as to form.</p> <p>4 Q. Okay. Does the right-hand column, does that</p> <p>5 recite citations to the documents you've</p> <p>6 testified about today that show a merchant</p> <p>7 accepts a customer identifier as payment</p> <p>8 from a customer?</p> <p>9 MR. EDELMAN: Same objection.</p> <p>10 Q. Please take as much time as you need.</p> <p>11 A. And the question is, at that time, did we</p> <p>12 accept the customer identifier as a payment</p> <p>13 for transaction, and the answer is we did.</p> <p>14 Q. The merchants did or Little & Company did?</p> <p>15 A. The merchants accepted it.</p> <p>16 Q. As described in the quotes in this chart</p> <p>17 that you're reading?</p> <p>18 MR. EDELMAN: Same objection.</p> <p>19 A. Right.</p> <p>20 Q. Okay. Looking at the bottom row on Page 2</p> <p>21 of Little Exhibit 12, the claim states "and</p> <p>22 electronically forwarding information</p> <p>23 related to the payment to a computerized</p> <p>24 merchant processor." Could you please tell</p> <p>25 me whether the cites in the right-hand</p>

33 (Pages 126 to 129)

<p style="text-align: right;">130</p> <p>1 column illustrate that Litle & Company 2 electronically -- or that the merchant 3 electronically forwarded information related 4 to the payment to Litle & Company? 5 MR. EDELMAN: Objection. Calls for 6 claim construction, beyond beyond the scope 7 of the deposition, lack of foundation. 8 A. Yes. 9 Q. And to clarify, you said that using -- 10 pursuant to the Member Agreement, which is 11 Litle Exhibit 4, the merchant would accept 12 credit cards, debit cards, and charge cards, 13 such as an American Express card? 14 A. That's correct. 15 Q. And did you also testify that the merchant 16 would accept those cards using a telephone 17 and inputting the credit card number into a 18 computer? 19 A. That's one way, yes. 20 MR. EDELMAN: I just want to put an 21 objection on the record. It wasn't clear to 22 me -- vague and ambiguous as to which 23 merchants you're referring to. 24 Q. Which merchants would accept a credit card 25 via telephone?</p>	<p style="text-align: right;">132</p> <p>1 needed for our process, and then the 2 settlement information might have gone to 3 NDC first and then through NPC, but it was 4 part of our contract, and the settlement 5 information sometimes then went directly to 6 us. Could go any one of those ways. 7 Q. Whether the card was present or not present, 8 was the information related to the payment, 9 such as the card number and the payment 10 amount -- 11 A. Yes. 12 Q. -- was that electronically forwarded? 13 A. Yes. In the card-not-present, it was always 14 directly forwarded to us. 15 Q. Electronically? 16 A. Yes. When it was card-not-present, it was 17 always forwarded electronically, but the 18 route that it took could vary, depending on 19 the circumstances. 20 Q. Okay. Thank you. On Page 3 of Litle 21 Exhibit 12, the next portion of the claim 22 states "at the computerized merchant 23 processor, acquiring the information related 24 to the payment from the merchant, 25 authorizing and settling the payment, and</p>
<p style="text-align: right;">131</p> <p>1 A. That's how the card-not-present merchants 2 received most of their transactions. When 3 they didn't receive them by telephone was 4 when they -- or by an order blank sent 5 through the mail. It was typically at a 6 warehouse sale or something like that. Then 7 they were operating just like a normal 8 retailer operating. 9 Q. And was the process by which those merchants 10 forwarded information, such as the card, 11 information and payment amount, to Litle & 12 Company in the authorization step in Litle 13 10, was that process different for 14 card-not-present or card-present 15 transactions? 16 A. How they actually forwarded the information 17 to us? Yeah. Actually, sometimes we got 18 the settlement information -- well, the 19 authorization process might not -- I can't 20 remember. It depended on the situation. 21 Might not have actually gone through us, but 22 we were responsible for it. It might have 23 gone directly to NDC, and then that 24 information would have come to us through 25 NDC, the authorization information, which we</p>	<p style="text-align: right;">133</p> <p>1 forwarding at least a portion of the payment 2 to a computerized payment receiver as 3 payment of at least a portion of an 4 obligation made by the merchant." 5 A. Uh-huh. 6 Q. Could you please read the citations in the 7 right-hand column, and it flows over on to 8 Page 4 and 5, and tell me whether that 9 accurately recites the portions of the 10 agreements you've testified to today. 11 MR. EDELMAN: I'm sorry. Was your 12 question getting at whether it reflects the 13 language of the Claim 10? 14 MR. GRAY: No. I asked whether it 15 accurately reflects -- 16 MR. EDELMAN: Reflects the 17 agreements. 18 Q. Do you understand my question? 19 A. Yeah. You are asking -- I'll read it back. 20 As I understand it, you're asking me to look 21 at the citations and without trying to 22 interpret whether they comply with the 23 patent or not, you're asking whether those 24 citations are accurate. Is that true? 25 Q. Right.</p>

34 (Pages 130 to 133)

<p style="text-align: right;">134</p> <p>1 MR. EDELMAN: That's fine.</p> <p>2 A. I have a question. In the first sentence,</p> <p>3 it says, at the end, "Management fee to</p> <p>4 Litle & Company, or order." I'm not sure</p> <p>5 that's either what it says or what it should</p> <p>6 have said.</p> <p>7 Q. I believe that is what it says. That's</p> <p>8 Litle Exhibit 7, I believe?</p> <p>9 MR. EDELMAN: I'm sorry. Where is</p> <p>10 the witness referring?</p> <p>11 MR. GRAY: The bottom of Page 3,</p> <p>12 the bottom paragraph in the right column,</p> <p>13 the fourth line down.</p> <p>14 MR. EDELMAN: Oh, I see it.</p> <p>15 Thanks.</p> <p>16 A. Yeah, I think that was a typo and it should</p> <p>17 have probably said -- it should have</p> <p>18 probably referred to what we were thinking</p> <p>19 of setting up or maybe had set up as a</p> <p>20 separate operation to do postage financing.</p> <p>21 Q. Okay. Outside of Litle & Company?</p> <p>22 A. Right. Well, it would have been owned by</p> <p>23 roughly the same people, but it would have</p> <p>24 been a separate operation.</p> <p>25 Q. Do you have any other questions about the</p>	<p style="text-align: right;">136</p> <p>1 differently.</p> <p>2 MR. SMITH: He knows too well.</p> <p>3 MR. EDELMAN: Objection.</p> <p>4 A. And then they charge you for it.</p> <p>5 Q. Your understanding, though, as someone who</p> <p>6 has been in the payment processing</p> <p>7 industry for 25-plus years.</p> <p>8 A. I would say I understand what the left-hand</p> <p>9 column is getting at and the right-hand</p> <p>10 column is a reflection of exactly that --</p> <p>11 Q. Okay.</p> <p>12 A. -- and matches what our documentation was.</p> <p>13 Q. And I'm going to be asking the same</p> <p>14 questions about each row going throughout</p> <p>15 this document. So beginning on Page 5,</p> <p>16 would you please read the citations in the</p> <p>17 right column?</p> <p>18 A. The question is the same; is this an</p> <p>19 accurate representation?</p> <p>20 Q. Yes.</p> <p>21 A. Yes, it is.</p> <p>22 Q. Do those citations accurately reflect your</p> <p>23 understanding of the description in the</p> <p>24 left-hand column?</p> <p>25 MR. EDELMAN: Same objections.</p>
<p style="text-align: right;">135</p> <p>1 citations in the right column?</p> <p>2 A. Yeah. I'd like to look at the definition of</p> <p>3 "prepayments."</p> <p>4 Q. That's in the Member Agreement?</p> <p>5 A. Okay. Yes, that's accurate.</p> <p>6 Q. Do all these citations on Pages 3 through 5</p> <p>7 accurately reflect your understanding of</p> <p>8 what the language in the left column</p> <p>9 requires?</p> <p>10 MR. EDELMAN: Same objections.</p> <p>11 A. As I understand it, yes.</p> <p>12 Q. And do you have any questions about what</p> <p>13 that -- do you understand what the claim</p> <p>14 language in the left-hand column is on those</p> <p>15 pages?</p> <p>16 MR. EDELMAN: Same objection.</p> <p>17 MR. SMITH: Objection. I think</p> <p>18 "claim language" is misleading. He can</p> <p>19 talk about what the words say, but "claim</p> <p>20 language" is a big problem.</p> <p>21 Q. The language that's printed in the left-hand</p> <p>22 column, do the right-hand citations</p> <p>23 accurately reflect your understanding?</p> <p>24 A. As a layman's understanding because lawyers</p> <p>25 always interpret stuff a little</p>	<p style="text-align: right;">137</p> <p>1 A. Yes. I understand the computer payment</p> <p>2 receiver as what I call the third party, and</p> <p>3 if that's the case, yes, it does accurately</p> <p>4 reflect it.</p> <p>5 Q. Looking at the next row, and the left-hand</p> <p>6 column begins with the Number 2 --</p> <p>7 A. Uh-huh.</p> <p>8 Q. -- it says "The method of claim 1 wherein</p> <p>9 the accepting step comprises accepting a</p> <p>10 credit card number as the customer</p> <p>11 identifier." Could you please look at</p> <p>12 what's cited in the right-hand column and</p> <p>13 tell me if that accurately reflects the</p> <p>14 Litle documents and -- well, if it</p> <p>15 accurately reflects that Litle accepted</p> <p>16 credit card numbers? Sorry. Let me start</p> <p>17 over. That the merchants who processed</p> <p>18 through Litle accepted credit card numbers.</p> <p>19 MR. EDELMAN: Same objections.</p> <p>20 MR. SMITH: Do you understand that</p> <p>21 question?</p> <p>22 THE WITNESS: I think so.</p> <p>23 Q. Let me rephrase. Sorry. Could you look at</p> <p>24 the citations in the right-hand column and</p> <p>25 tell me whether those citations accurately</p>

35 (Pages 134 to 137)

<p style="text-align: right;">138</p> <p>1 illustrate that Little & Company processed</p> <p>2 credit card transactions for merchants?</p> <p>3 MR. EDELMAN: Same objections.</p> <p>4 A. Yes. That was our service, processing</p> <p>5 credit cards for merchants.</p> <p>6 Q. And on Page 6 of Little Exhibit 12, the</p> <p>7 bottom row begins with the number 3, could</p> <p>8 you please look at the right-hand column</p> <p>9 and, disregarding the first paragraph,</p> <p>10 please tell me whether those citations --</p> <p>11 A. Disregarding the first paragraph?</p> <p>12 Q. Right, disregarding, and was your testimony</p> <p>13 earlier that Little would process debit cards</p> <p>14 on behalf of merchants?</p> <p>15 A. Yes, but they weren't necessarily identified</p> <p>16 as debit cards.</p> <p>17 Q. Right.</p> <p>18 A. In fact, they were necessarily by the</p> <p>19 payment networks disguised as debit cards.</p> <p>20 Q. Could you please read the citations to the</p> <p>21 documents and tell me whether those</p> <p>22 citations showed that Little accepted debit</p> <p>23 cards -- sorry -- that Little processed</p> <p>24 transactions where debit cards were used at</p> <p>25 the merchant?</p>	<p style="text-align: right;">140</p> <p>1 computer chip on them that did something.</p> <p>2 There are cards now that carry changing</p> <p>3 passwords on it, sort of like an RSA</p> <p>4 password. There are cards that you can</p> <p>5 stick your thumb over and it can identify</p> <p>6 the fact that your thumb print is really</p> <p>7 your thumb print and not somebody else's. A</p> <p>8 Smart Card encompasses all kinds of stuff.</p> <p>9 A Smart Card typically had to be used in</p> <p>10 conjunction with some sort of terminal</p> <p>11 device. So we didn't handle any Smart Cards</p> <p>12 that I know, except that it's also my</p> <p>13 understanding that some Smart Cards had Visa</p> <p>14 or MasterCard identification numbers on</p> <p>15 them, and if that case, if somebody gave</p> <p>16 those Visa and MasterCard identification</p> <p>17 numbers over the telephone as a</p> <p>18 card-not-present card, we would handle it</p> <p>19 like we'd handle any other credit card,</p> <p>20 although we wouldn't necessarily know it was</p> <p>21 a Smart Card.</p> <p>22 Q. Could you look at Page 8 of Little Exhibit</p> <p>23 12, the very bottom line, and Page 9, and</p> <p>24 tell me whether the citations to the Little</p> <p>25 documents in the right-hand column</p>
<p style="text-align: right;">139</p> <p>1 MR. EDELMAN: Same objections.</p> <p>2 A. And the question again, is?</p> <p>3 Q. Whether these citations in the right-hand</p> <p>4 column illustrate that Little would process</p> <p>5 debit card transactions for merchants.</p> <p>6 A. Yes.</p> <p>7 Q. Do you know what a Smart Card is?</p> <p>8 A. Yes.</p> <p>9 Q. What is a Smart Card?</p> <p>10 A. It's typically a card with a chip on it that</p> <p>11 carries information about an individual. In</p> <p>12 those days, they were talking about Smart</p> <p>13 Cards carrying your medical history and all</p> <p>14 kinds of stuff on it, and so they would have</p> <p>15 represented a distributor database of a</p> <p>16 hundred million nodes, which was in my view</p> <p>17 ridiculous, and I said so on regular</p> <p>18 occasions in front of a bunch of credit card</p> <p>19 people. Now, it's really become a card that</p> <p>20 carries personal identification</p> <p>21 information. So a Smart Card is usually an</p> <p>22 identification device. Prepaid phone cards</p> <p>23 could be considered Smart Cards because they</p> <p>24 stored information on them, but I always</p> <p>25 looked at Smart Cards as those that had a</p>	<p style="text-align: right;">141</p> <p>1 illustrate that Little processed charge card</p> <p>2 transactions for its merchants.</p> <p>3 MR. EDELMAN: Same objections as</p> <p>4 before.</p> <p>5 A. Yes.</p> <p>6 Q. And on the row that's numbered 6, would you</p> <p>7 please read the citations in the right-hand</p> <p>8 column and tell me whether that accurately</p> <p>9 illustrates that the merchants for whom</p> <p>10 Little would process transactions would</p> <p>11 sometimes accept credit cards at their</p> <p>12 warehouse sales or otherwise at the merchant</p> <p>13 location?</p> <p>14 MR. EDELMAN: Same objections.</p> <p>15 A. Well, interestingly enough,</p> <p>16 card-not-present, based on the Visa and</p> <p>17 MasterCard regulations, the</p> <p>18 card-not-presents were accepted at the</p> <p>19 merchant location that was their office or</p> <p>20 the place where they were accepting orders,</p> <p>21 and that location, I think in those days, it</p> <p>22 changed, had to be identified, by city and</p> <p>23 state. So that was true with</p> <p>24 card-not-present, but card present is more</p> <p>25 obvious. Card-presents were done -- one of</p>

36 (Pages 138 to 141)

<p style="text-align: right;">142</p> <p>1 the things that I actually got Visa and</p> <p>2 MasterCard to do was to allow us, instead of</p> <p>3 putting the city and state as an identifier</p> <p>4 for where the card-not-present transactions</p> <p>5 came from, allowing them -- or now, it's a</p> <p>6 requirement -- to put the 800 number of the</p> <p>7 customer service number on it. I don't</p> <p>8 remember at this time whether the actual</p> <p>9 city and state was still required, but this</p> <p>10 was interestingly enough true for</p> <p>11 card-not-present, as well as card-present</p> <p>12 transactions.</p> <p>13 Q. On Page 10, Row 7, would you please tell me</p> <p>14 whether the right-hand column illustrates</p> <p>15 how merchants for whom Litle would process</p> <p>16 transactions would electronically accept</p> <p>17 cards?</p> <p>18 MR. EDELMAN: Same objections.</p> <p>19 MR. SMITH: It looks like, on some</p> <p>20 of this, there's some editorial, as well.</p> <p>21 So within the quotes is what came from the</p> <p>22 documents; is that right?</p> <p>23 MR. GRAY: Right.</p> <p>24 MR. SMITH: Are you asking him to</p> <p>25 verify what is in the parentheses?</p>	<p style="text-align: right;">144</p> <p>1 it religiously and sometimes they didn't do</p> <p>2 so well, but --</p> <p>3 Q. And you earlier -- did you earlier testify</p> <p>4 that some of Litle & Company's merchants</p> <p>5 would have credit card terminals or card</p> <p>6 terminals at the merchant location?</p> <p>7 A. Yes, and we could always identify those</p> <p>8 transactions, because we'd get a terminal</p> <p>9 number and we knew which terminal it was</p> <p>10 used, and so we'd always know that was a</p> <p>11 card-present transaction. We didn't</p> <p>12 necessarily always know that a</p> <p>13 card-not-present transaction was a telephone</p> <p>14 order or a mail order, and I frankly don't</p> <p>15 think Visa and MasterCard cared about that.</p> <p>16 Q. How would you receive that information from</p> <p>17 the terminal?</p> <p>18 A. Well, it could take several routes, but</p> <p>19 electronically, the path that it took</p> <p>20 would -- could take several different</p> <p>21 routes. It could come right from the</p> <p>22 terminal to us. It could go from the</p> <p>23 terminal to NDC. It could go from the</p> <p>24 terminal to NPC, and I don't really remember</p> <p>25 all the ways, but we would change -- over</p>
<p style="text-align: right;">143</p> <p>1 MR. GRAY: No.</p> <p>2 MR. SMITH: Okay. So just -- I</p> <p>3 just want to be --</p> <p>4 MR. GRAY: Well, actually, yes.</p> <p>5 Q. If we say it shows something, I'd like you</p> <p>6 to verify that the quote actually does</p> <p>7 show.</p> <p>8 MR. SMITH: Do you understand what</p> <p>9 they're asking?</p> <p>10 THE WITNESS: Yes.</p> <p>11 A. This is certainly what was said. The idea</p> <p>12 of actually identifying a sale as a mail</p> <p>13 order or a telephone order was often done,</p> <p>14 not necessarily always done. We'd identify</p> <p>15 each merchant or each sub-merchant by our</p> <p>16 internal merchant number that we had that</p> <p>17 the merchant also used. So anything that</p> <p>18 would come under one merchant number would</p> <p>19 be a mail order. Another sub-merchant</p> <p>20 number would be a telephone number. Another</p> <p>21 sub-merchant number would be a card-present</p> <p>22 transaction. We'd roll all that up and</p> <p>23 account for it as one merchant, but we could</p> <p>24 tell where the transactions came from,</p> <p>25 typically, and the merchants sometimes did</p>	<p style="text-align: right;">145</p> <p>1 time, we would change the way we did that.</p> <p>2 For efficiency reasons, for cost reasons,</p> <p>3 for whatever reasons, we would change that,</p> <p>4 but we always received it electronically.</p> <p>5 We probably received some paper</p> <p>6 transactions, but I can't imagine, during</p> <p>7 the whole course of our company, we received</p> <p>8 more than a handful.</p> <p>9 Q. Looking at Row 8 on Page 10 of Litle Exhibit</p> <p>10 12, did Litle & Company ever instruct FNBL</p> <p>11 to accumulate payments until a certain</p> <p>12 amount is reached before forwarding</p> <p>13 payments?</p> <p>14 MR. EDELMAN: Objection. Calls for</p> <p>15 claim construction, mischaracterizes the</p> <p>16 claim.</p> <p>17 Q. Do you understand that language, Mr. Litle,</p> <p>18 "accumulate the payments"?</p> <p>19 MR. EDELMAN: Same objection.</p> <p>20 MR. SMITH: Well, I think it's a</p> <p>21 couple of questions. So do you want him to</p> <p>22 answer your question or do you want him to</p> <p>23 comment on the text that's written here next</p> <p>24 to --</p> <p>25 MR. GRAY: Comment on my question.</p>

37 (Pages 142 to 145)

<p style="text-align: right;">146</p> <p>1 Q. You can disregard the text on the right-hand 2 side.</p> <p>3 MR. SMITH: Okay. Ignore what is 4 on the paper. Can you read the question 5 back, please.</p> <p>6 (The following question was read 7 back by the court reporter: 8 "Looking at Row 8 on Page 10 of 9 Little Exhibit 12, did Little & 10 Company ever instruct FNBL to 11 accumulate payments until a certain 12 amount is reached before forwarding 13 payments?")</p> <p>14 A. I'll answer that in two parts. The first 15 part is, we did accumulate transactions. 16 Some of our customers would send us -- 17 they'd go through a cycle every day. Some 18 of them would go through a cycle every ten 19 minutes, and based on the way transactions 20 are settled, you know, they're all settled 21 in a batch, that's all batch is today, even, 22 and we would settle them through the Visa 23 and MasterCard network. Also, multiple 24 times during the day, but somebody like 25 Micro Warehouse would send us batches every</p>	<p style="text-align: right;">148</p> <p>1 gateway into the networks, and so we would 2 settle with them multiple times. Maybe we'd 3 only settle with them once. I don't 4 remember. I know when we were settling 5 directly through Visa and MasterCard, we did 6 settle with them multiple times.</p> <p>7 Now, we didn't -- the part of when 8 we would electronically transmit the data to 9 the merchants or the third parties, that was 10 kind of independent of that. The dollar 11 value would accumulate or the dollar value 12 would show up in the First National Bank of 13 Louisville account as a funds transfer in 14 bulk. They were just one big number that 15 came in from Visa, one number that came in 16 from MasterCard, and then we'd sort it out 17 according to our own accounting records. 18 Maybe I don't understand the question.</p> <p>19 Q. Was there a particular event that would 20 trigger an electronic forwarding of money 21 from FNBL to a merchant or to a third 22 party?</p> <p>23 A. Our instruction.</p> <p>24 Q. And what was a typical instruction?</p> <p>25 A. It would be, at this point in time -- "On</p>
<p style="text-align: right;">147</p> <p>1 ten minutes, and we would accumulate those 2 until it was convenient or until the next 3 time we settled it through the Visa and 4 MasterCard networks. Now, that wasn't 5 necessarily accumulating it until a 6 pre-determined amount was reached. It was 7 accumulating it until either we wanted to 8 get them in under the day's fiscal cutoff or 9 for the next time we -- our next cycle we 10 had to settle through Visa and MasterCard. 11 We probably had three or four times a day, 12 we did that.</p> <p>13 Q. Okay.</p> <p>14 A. Now, as far as accumulating payments until a 15 pre-determined amount is reached, we really 16 didn't do that, as far as I can tell.</p> <p>17 Q. Looking at Row 9 on Page 10, you just 18 described that Little & Company would often 19 instruct FNBL to forward the payments -- or 20 to settle the payments and forward the 21 payments daily; is that correct?</p> <p>22 A. What we did is we settled the payments -- 23 when I said go to the Visa/MasterCard 24 networks, that, in those days I think was 25 through FNBL. They were operating as our</p>	<p style="text-align: right;">149</p> <p>1 this day, transfer this amount to that 2 account, this account to that account," and 3 it was just a list of amounts and accounts 4 that we would transfer.</p> <p>5 Q. Would it forward -- would it transfer those 6 amounts daily, for example?</p> <p>7 A. Yes. That cycle was done every day.</p> <p>8 Q. Okay. Looking at Line 9 on Page 10, the 9 quote that begins "In consideration of 10 Little & Company making advances," if you 11 look at the second line from the bottom of 12 that quote on Page 11, it says, <i>small Roman</i> 13 <i>Numerals</i> ii, "The daily repayments shall be 14 deducted from daily net proceeds."</p> <p>15 A. Uh-huh.</p> <p>16 Q. Does that show that FNBL would forward 17 payments to the merchant daily and deduct -- 18 well, does that show that FNBL would forward 19 payments, net proceeds, daily to the 20 merchant?</p> <p>21 A. Based on our instruction, we would say 22 "Forward this amount of money, some amount 23 of money, to the merchant." FNBL did not 24 know what the components of that money was. 25 From our point of view, our instructions</p>

38 (Pages 146 to 149)

<p style="text-align: right;">150</p> <p>1 would say "Forward the daily net proceeds, 2 less any of the other obligations of the 3 merchant." The other obligations could be 4 for chargebacks that had actually already 5 been withheld by the networks, it could be 6 for our fees, it could be for payment of 7 postage advances, it could be for payment of 8 terminals, it could be to increase increase 9 the reserve account. It could be all kinds 10 of stuff -- 11 THE VIDEOGRAPHER: Five minutes 12 left on tape. 13 A. -- but when you say FNBL forwarded an 14 amount, they forwarded what we told them. 15 It was the sum of all those components. 16 Q. Would you instruct FNBL to forward those 17 payments to the third party? 18 A. Yes. 19 Q. Daily? 20 A. Yes. 21 Q. For example -- 22 A. It depended. Actually, sometimes we did do 23 it weekly, so we would -- I guess we 24 would -- yeah, most of the time we did it 25 daily. Frankly, we tried to do everything</p>	<p style="text-align: right;">152</p> <p>1 Q. (Cont'd. By Mr. Gray) Mr. Little, I'd like 2 you to look back at Little Exhibit 11, and 3 again, read Claim 10 to yourself slowly. 4 When the language -- when the claim recites 5 "means" for something, that means it's 6 reciting an apparatus or equipment that is 7 used for performing a particular function, 8 and what I'd like to ask you is, for each of 9 those portions of a claim, and I'll begin 10 with "means for accepting a customer 11 identifier as payment for the customer." 12 I'd like you to tell me whether there was 13 standard equipment used in the industry for 14 performing a particular function. Do you 15 understand? 16 A. I think so. 17 MR. EDELMAN: I object. Also, it 18 calls for claim construction. 19 Q. Was there standard equipment used in the 20 industry for accepting a customer identifier 21 as payment from the customer? 22 MR. EDELMAN: Same objections. 23 A. There were standards. There were several 24 types of equipment. The one we dealt with 25 most was an order processing system that was</p>
<p style="text-align: right;">151</p> <p>1 daily. We tried to deal with interchange 2 daily. We tried to deal with all this stuff 3 daily, because that was easiest for the 4 merchant if everything happened all at the 5 same time. We'd sort out the fact that Visa 6 actually charge dollars us for interchange 7 once a month. There were all kinds of 8 different timing arrangements that were in 9 there, and for a merchant to try and figure 10 that all out, it was difficult, so we tried 11 to do everything daily for the merchant. . 12 Q. But if not daily, was it typically on some 13 other periodic basis? 14 A. Yes. 15 MR. GRAY: We can go ahead and 16 change the tape. 17 THE VIDEOGRAPHER: The time is 18 2:08. This is the end of Cassette 2. We 19 are off the record. 20 MR. SMITH: We'll take five. 21 (Recess.) 22 THE VIDEOGRAPHER: The time is 23 2:17. This is the beginning of Cassette 24 Number 3 in the deposition of Thomas Little. 25 We are on the record.</p>	<p style="text-align: right;">153</p> <p>1 basically a terminal and an operator would 2 key in the order. The software that managed 3 that computerized order entry system was 4 often sold to the direct marketers by a 5 third party, and there are limited numbers. 6 Sometimes direct marketers wrote their own 7 software. They used different equipment, 8 but it was all basically what one would 9 consider a relatively standard order entry 10 system. 11 Q. And to clarify, was that a computer keyboard 12 where someone would input a number -- 13 A. Yes. 14 Q. -- into a computer? 15 A. Uh-huh. That was one way. 16 Q. What was another way? 17 A. Another way was to actually use terminals 18 and probably five years before the period of 19 time we're talking about, which I think is 20 1992, that range, the computerized order 21 entry systems really didn't accept credit 22 cards, so terminals were used in parallel 23 with the computerized order entry system, 24 but by 1992, it was generally order entry 25 systems that were built to accept credit</p>

39 (Pages 150 to 153)

<p style="text-align: right;">154</p> <p>1 cards, to check the validity, the mechanical 2 validity. The Visa and MasterCard 3 transactions were 16 characters long and 4 started with a 4 and a 5 respectively, and 5 had a 10-check digit at the end, and that 6 kind of stuff, and that was most of the 7 card-not-present transactions. 8 Q. And Litle & Company processed -- did Litle & 9 Company process card transactions for 10 merchants who accepted credit cards or cards 11 via terminals or computer keyboard input? 12 A. Yes. The terminals was -- we certainly 13 did. That was a smaller part of our 14 business. 15 Q. What sort of hardware did merchants use to 16 electronically forward information related 17 to the payment to Litle? 18 A. They used -- on their computers, they had 19 connections to either -- in those days, they 20 had connections to either a frame relay 21 system, which was something supplied by the 22 telephone company, or a regular dial-up 23 telephone, and those transactions would get 24 conveyed to us via those kinds of 25 telephone-operated networks.</p>	<p style="text-align: right;">156</p> <p>1 the -- 2 Q. Right. For example, computers, network and 3 modem. 4 A. Well, that's it. It was the way the 5 transaction was captured, whether it was in 6 an order entry system or a terminal, the way 7 it was transmitted, whether it was connected 8 by modem or to a lease line -- a modem to a 9 dial-up line. It was actually modems to a 10 frame relay line or connected to a lease 11 line at the merchant's end. Basically, the 12 reverse of that at our end to receive the 13 information, and the information went back 14 and forth. When a merchant would send in a 15 settlement file, for example, then we had to 16 send back a confirmation that what they 17 thought they sent us, we actually got, and 18 that was the moment in time, when we sent 19 back that confirmation, when we owned the 20 transactions. 21 Q. And you testified earlier to this, but what 22 hardware was used -- sorry. Let me start 23 over. How was the money forwarded from FNBL 24 to the third party in your diagram in 25 Exhibit 10?</p>
<p style="text-align: right;">155</p> <p>1 Q. Okay. How would Litle receive that 2 information from the merchant? 3 A. We would also be connected to either a plain 4 dial-up line, and the merchant would call 5 the number, our number, basically, make a 6 telephone call, and we'd have a modem 7 connected to that and we'd receive the 8 merchant's data, or we'd be connected to the 9 other end of a frame relay circuit and 10 accept the information from the merchant, or 11 in some cases, we actually had a lease line 12 between the merchant and us, and so it was 13 just like a -- the phone company provided 14 it, but it was like a wire between us and 15 the merchant. 16 Q. What hardware was used for authorizing and 17 settling the payment at each of the entities 18 involved in the process? 19 MR. EDELMAN: Objection. Calls for 20 claim construction. 21 A. The -- what hardware was -- 22 Q. -- was used by each entity in the process 23 outlined in Litle Exhibit 10, and I'm just 24 asking generally. 25 MR. SMITH: You mean, each of</p>	<p style="text-align: right;">157</p> <p>1 A. Either through a wire transfer, which was, 2 a wire transfer system is operated by the 3 Fed -- it's the way banks typically transfer 4 money between each other -- or by the ACH -- 5 an ACH system, which means automated 6 clearinghouse, and I think that's operated 7 by the Fed -- no. It's operated by an 8 organization called NACHA, National 9 Automated Clearinghouse Association, or 10 something like that, and which really did 11 the same thing as a wire did, except it took 12 a day longer. 13 Q. In each of the examples that you've 14 testified to here today, is the equipment 15 that is used by each of the entities in 16 Litle Exhibit 10, is that -- is it the same 17 equipment? 18 A. Pretty much. Depending on the 19 circumstance. If it was the same 20 circumstance, it would be the same type of 21 equipment. I mean, we would have ten people 22 transmitting files at the same time, so 23 there were ten instances in the same 24 equipment, but -- 25 Q. Okay. In other words, did the equipment</p>

40 (Pages 154 to 157)

<p style="text-align: right;">158</p> <p>1 change between the Hanover finance situation</p> <p>2 and the postage finance situation, for</p> <p>3 example?</p> <p>4 A. It could because it just depended on how</p> <p>5 Hanover would receive payments. Maybe they</p> <p>6 received an ACH. Maybe they received a</p> <p>7 wire. I don't remember how they did that.</p> <p>8 Q. Either way, it was an electronic transfer?</p> <p>9 A. Yes.</p> <p>10 MR. GRAY: I'll pass the witness.</p> <p>11 (Discussion off the record.)</p> <p>12 CROSS-EXAMINATION</p> <p>13 by Mr. Edelman:</p> <p>14 Q. Good afternoon.</p> <p>15 A. Hi.</p> <p>16 Q. I am Mike Edelman. I will be asking you</p> <p>17 questions on behalf of Advanceme. Could you</p> <p>18 put Little Exhibit 11 back in front of you?</p> <p>19 Now, I believe you testified earlier that</p> <p>20 you thought, at least from your perspective,</p> <p>21 that you understood what Claims 1 and 10</p> <p>22 encompassed?</p> <p>23 A. Uh-huh.</p> <p>24 Q. Is that correct?</p> <p>25 A. Not from a lawyer's point of view, but</p>	<p style="text-align: right;">160</p> <p>1 we haven't really gotten to that aspect of</p> <p>2 what we -- what we think our service will</p> <p>3 be. I don't know if we'll ever perform</p> <p>4 that. We may. We may not.</p> <p>5 Q. When you say "that," do you mean providing</p> <p>6 payments to third parties?</p> <p>7 A. Yes.</p> <p>8 Q. Do you have an option that's advertised on</p> <p>9 your website called Dynamic Settlement?</p> <p>10 A. It's not active. Dynamic Settlement, no, we</p> <p>11 don't --</p> <p>12 Q. What is Dynamic Settlement?</p> <p>13 A. Huh?</p> <p>14 Q. What is Dynamic Settlement?</p> <p>15 A. Actually, I don't remember what Dynamic</p> <p>16 Settlement is.</p> <p>17 Q. Doesn't Dynamic Settlement, as described on</p> <p>18 your website, describe payments to third</p> <p>19 parties?</p> <p>20 MR. SMITH: Objection. Same</p> <p>21 instruction. You're here in a personal</p> <p>22 capacity; not as a representative of the new</p> <p>23 Little & Co.</p> <p>24 A. Okay. Providing payments to third parties.</p> <p>25 We do that in the sense that we maintain</p>
<p style="text-align: right;">159</p> <p>1 from --</p> <p>2 Q. From your point of view?</p> <p>3 A. -- from a layman's point of view, yeah.</p> <p>4 Q. All right. Does your company perform the</p> <p>5 inventions in Claims in 1 and 10?</p> <p>6 MR. SMITH: I'm going to object and</p> <p>7 I'm going to instruct the witness not to</p> <p>8 answer to the extent that the answer would</p> <p>9 reveal confidential proprietary information.</p> <p>10 To the extent that it would not it, you may</p> <p>11 answer. He's here in his personal capacity;</p> <p>12 not as a representative of the current Little</p> <p>13 & Company. So with that caveat, the</p> <p>14 question again?</p> <p>15 A. So I'm going to get sued if I say yes;</p> <p>16 right?</p> <p>17 Q. I'm asking --</p> <p>18 A. No, we don't.</p> <p>19 Q. You do not, and why do you not perform the</p> <p>20 inventions in Claims 1 and 10 in your</p> <p>21 current business?</p> <p>22 A. Because our company is a relatively new</p> <p>23 company and the process by which we build</p> <p>24 our system is building it up sequentially to</p> <p>25 serve the needs of our early customers, and</p>	<p style="text-align: right;">161</p> <p>1 reserves, we maintain -- we do some of the</p> <p>2 stuff we're talking about. We don't do</p> <p>3 postage financing.</p> <p>4 Q. Do you believe that maintaining reserves for</p> <p>5 third parties is not performing Claims 1 and</p> <p>6 10?</p> <p>7 MR. SMITH: Objection.</p> <p>8 A. I think that's -- I think that's an</p> <p>9 interpretation of the patent and that's not</p> <p>10 why I'm here.</p> <p>11 Q. You didn't seem to have any problem with the</p> <p>12 other side's questions.</p> <p>13 MR. SMITH: Object to the</p> <p>14 characterizations.</p> <p>15 MR. GRAY: I never asked --</p> <p>16 Q. Mr. Little, is there any way to perform</p> <p>17 Claims 1 and 10, other than postage</p> <p>18 financing?</p> <p>19 MR. SMITH: Objection. You're</p> <p>20 asking about his interpretation again.</p> <p>21 Q. In your layman's perspective.</p> <p>22 A. Is there any way to what?</p> <p>23 Q. Perform Claims 1 and 10, other than by</p> <p>24 postage financing.</p> <p>25 A. Sure.</p>
